

GRENADA

New legislation in 2013 re-established the Citizenship-by-Investment program (previously closed in 2001). Dual citizenship is permitted.

Two main options:

1. Direct contribution option to a National Transformation Fund
2. Real-estate option → minimum USD 500,000 into real estate project approved by the government

The structure of the program seems to favor specific business interests and may only be of interest to those who actual wish to reside and do business in Grenade.
